CAREER OBJECTIVE

Experienced software developer with a passion for real estate, specializing in **WordPress development**. Skilled in creating innovative tools and solutions that empower agents and businesses to succeed.

RELATED WORK EXPERIENCE

Software Developer   Dec. 2021 – Nov.2023
Cybertron Technologies

- **WordPress Development**: Led the development and deployment of 5+ end-to-end WordPress websites within a 4-month timeframe. Created high-quality custom themes from scratch, tailored to client specifications.
- **Custom Solutions**: Implemented advanced WordPress functionalities including custom plugins, widgets, and shortcodes to meet unique client needs.
- **API Integration**: Integrated various APIs (e.g., Google Maps API, Payment Gateway Interfaces) to enhance website functionality and user experience.
- **Real-Time Applications**: Developed real-time chat applications and chatbots using OpenAI and Langchain, improving customer interaction and support.
- **Performance Optimization**: Conducted performance optimization and security audits, ensuring websites handled a user base of over 100k efficiently and securely.
- **Client Interaction**: Actively communicated with clients to understand their requirements and resolve queries, providing technical support and ensuring satisfaction.

ACADEMIC QUALIFICATION

Post Graduate Diploma in Full Stack Software Development
Lambton College, Expected Oct. 2025

Bachelors of Science in Information Technology
I.K Gujral PTU, April. 2021
